

Travel certificate

The holder of this certificate suffers from a life threatening allergy which could result in an anaphylactic reaction.

He/she needs to carry an adrenalin auto-injector for immediate emergency self-treatment. For this purpose, it is essential for the patient to carry their auto-injector device with him / her at all times including whilst on an aircraft.

The EpiPen® (adrenaline) Auto- Injector or EpiPen® Jr (adrenaline) Auto- Injector does not endanger other passengers or flight personnel.

Please be aware of this traveller's health risk.
